

Y2 -LIVING THINGS & THEIR HABITATS (PART 2)

VOCABULARY

Tier 2 (Academic) Vocabulary:

Source, dependence, relationship, sequence, transfer, impact, identify, represent

Tier 3 (Subject Specific) Vocabulary:

Food chain, producer, consumer, predator, prey, source of food, shelter, dependence, energy, woodland, ocean, grassland

WHAT DO I ALREADY KNOW?

- I know about Identifying living things, habitats, microhabitats, and diets (carnivore, herbivore, omnivore).

KNOWLEDGE	SKILL
I can identify food sources for herbivores, carnivores, and omnivores.	RESEARCHING & CLASSIFYING
I can describe interdependency for food and shelter in habitats.	OBSERVING & RESEARCHING
I can construct simple food chains and explain energy transfer arrows.	MODELLING
I can build and label woodland food chains using producers/consumers.	MODELLING & CLASSIFYING
I can build marine/savannah food chains.	MODELLING
I can predict the impact of removing an organism from a food chain.	PATTERN SEEKING
