

Y5 - ANIMALS INCLUDING HUMANS

VOCABULARY

Tier 2 (Academic) Vocabulary:

Describe, compare, trace, analyse, identify, categorize, mature, communicate

Tier 3 (Subject Specific) Vocabulary:

Gestation, prenatal, foetus, embryo, womb, uterus, baby, toddler, child, adolescence, teenager, puberty, adult, adulthood, elderly, life expectancy, male sex cell, female sex cell, fertilisation, menstrual cycle

WHAT DO I ALREADY KNOW?

- I know about animal offspring growth stages, human skeletal/muscular systems and basic digestive functions from Y2 and Y3.

KNOWLEDGE	SKILL
• I can describe human fertilisation and the 9-month prenatal gestation timeline.	RESEARCHING
• I can sequence human physical growth changes (baby, toddler, child, teen, adult, elderly).	CLASSIFYING
• I can identify female development stages during puberty (breasts, hips, periods).	RESEARCHING
• I can identify male physical changes during puberty (voice deepening, hair, sweat).	RESEARCHING
• I can seek patterns between mammal adult size and length of gestation.	PATTERN SEEKING
• I can research factors affecting old age development and life expectancy.	RESEARCHING
